

# Zeta Gamma Gamma

By Brother Steven Wood

It was a warm Tuesday morning, September 15 this year, when the Zeta Gamma Gamma, the Oak Ridge chapter of Omega Psi Phi and the Oak Ridge Alumnae Chapter of Delta Sigma Theta partnered to provide snacks for Linden Elementary's students with food uncertainty. Brothers and sorors have made the concerted effort to address issues of the community school that have been relayed to them. Answering a call from the Delta's, ZGG immediately formed a committee to support, then partnered getting what aid is expressed.

In 2025, the Brothers of the Secret City, were asked if to support ORAC in providing hygiene needs for students of the community school. Unanimously and without hesitation ZGG stepped up. The collaboration has benefited both chapters more than the school and students. "In coming together we have magnified the potency of our works, while focusing on specific issues facing these students." - Sean Cash Basileus of ZGG "We are blessed to work so well together and challenge one another to improve the lives of our community."

Soror Cheryl Gray has spearheaded the Delta's, while Brothers Antonio Mays, David Mebane, Terry Copeland and Eugene Miller have pulled together the efforts of the chapter in providing materials needed. We are excited to see where this partnership will take us and do for the school. We are excited for the possibility to expand to other schools in the community.
